

## Big Air H<sub>2</sub>O and Plasma Tower Sizing Information

When ordering your H<sub>2</sub>O or Plasma Tower, you will need to provide two width measurements on your boat.

The Front Width Measurement will be the distance between where the two front legs will connect to your boat.

The Rear Width Measurement will be the distance between where the two rear legs will connect to your boat.

The two widths need to be between 42" and 48" apart.
